

13 MARCH 2018.

Dear JOY 94.9 member,

The time has come to reshape JOY 94.9's future by calling for a Special General Meeting (SGM).

An ever-growing list of life members, ordinary members, volunteers, past and present presenters, staff and concerned members of our LGBTI communities have had enough.

- Enough of the bullying
- Enough of the lack of action by the board
- Enough of breaking the rules of JOY's constitution
- Enough of the low morale
- Enough of the disconnect with LGBTI communities
- Enough of seeing dedicated volunteers disrespected, unappreciated and upset

It is no secret that JOY 94.9 has seen an exodus of extraordinary on-air presenters and volunteers who have been forced out or who felt the need to walk away under the current management and board. Nor is it a secret that morale at JOY 94.9 is possibly at its lowest point ever.

JOY 94.9's board of directors has been given ample time to address these and many other issues. They have chosen not to do so.

The undersigned believe the only way forward is to call an SGM, dissolve the current board and appoint an interim board. We need signatures from at least 100 **current JOY members** to do this. **The time to do this is now.**

We are a united coalition of JOY 94.9 members that includes JOY's founder, John Oliver, and many life members. We are determined to deliver integrity, sustainability and an authentic connection to our communities as the foundation of JOY's future.
